About Me

I'm a motivated fresher with a solid understanding of Python programming and logical thinking. I enjoy creating simple yet useful programs and exploring technologies like Flask, file handling, and APIs. I'm looking for an opportunity to apply my skills and grow into a professional Python Developer.

Skills

- Python (Learning)
- AI & ML Basics
- Logic-based Program Writing
- Web Development Basics
- Git & GitHub
- API Integration
- OpenCV, MediaPipe, Tesseract OCR

Languages

Hindi, English, Marathi, Kannada

Education

B.Sc Computer Science

Gulbarga University, Kalaburagi

Year of Completion: 2025

Projects

Hand Product Name Detection (MediaPipe + OpenCV + Tesseract)

- Detects hands from webcam feed
- Identifies held product
- Extracts product name using OCR
- Displays detection & FPS
- Saves output video

Automated Email OTP Verification System

- Secure OTP send & verify using Python
- Gmail SMTP integration

YouTube Download Workspace

- Downloads MP3/MP4 using organized folders
- main.py acts as entry script

Grocery Store Billing System (Python)

- Simulates supermarket billing
- Manages stock, quantities & bill generation
